

Walk-In

Front End Developer

January 6th, 2025

Time: 9.00 AM

Job Description:

We are seeking a passionate and talented Front End Developer to join our dynamic team. The ideal candidate will be responsible for designing and implementing user interface components for JavaScript-based web and mobile applications using open-source library frameworks such as React, Angular, and Vue.js. With a focus on delivering high-quality user experiences, the Front End Developer will collaborate closely with our UX design team to translate visual concepts into functional and engaging user interfaces.

Eligibility:

- BE/ B.Tech, ME/ M.Tech, M.Sc (CS, IT), MCA
- 2023 and 2024 Graduates (in Regular) with a minimum of 65% in UG & PG (If applicable)
- 75% in SSLC & HSC. No gaps of any kind
- Experience: 0 to 1year of experience in Front-End Development. Portfolio is mandatory.

Key Responsibilities:

- Develop and implement highly responsive user interface components using React concepts, Angular, and Vue.js.
- Utilize HTML, CSS (SASS preferred), JavaScript, and TypeScript to build scalable, efficient, and maintainable front-end systems.
- Collaborate with the UX team to design and develop UI kits and ensure that the visual design intent is accurately reflected in the delivered product.
- Translate Figma designs into fully functional web applications, ensuring cross-browser compatibility and mobile responsiveness.
- Work closely with the development team to integrate front-end components with server-side logic and functionality.
- Participate in code reviews and adhere to best practices in web development to ensure high-quality code standards.
- Continuously update and refine front-end codebases to incorporate the latest technology trends and best practices.
- Assist in the development and maintenance of documentation for user interface components and front-end architecture.

Skills Required:

- Proficient understanding of web markup, including HTML5 and CSS3.
- Strong knowledge of modern JavaScript (ES6+), TypeScript, and CSS pre-processing platforms, such as SASS.
- Experience with front-end development frameworks and libraries such as React, Angular, and Vue.js.
- Familiarity with Figma or similar design tools is preferred.
- Ability to translate UX designs into high-quality code.
- Good understanding of asynchronous request handling, partial page updates, and AJAX.
- Proficient understanding of cross-browser compatibility issues and ways to work around them.
- Excellent problem-solving skills and attention to detail.

What We Offer:

- A dynamic and creative work environment where you can voice your ideas and contribute to exciting projects.
- Opportunities for professional growth and development, including access to resources and workshops to enhance your skills.
- A collaborative team culture that values innovation, efficiency, and continuous improvement.
- Competitive salary and benefits package.
- Permanent work from home option (**After the probation period**)

We are excited to welcome a new Front End Developer to our team who is enthusiastic about creating beautiful, user-friendly digital experiences.

Venue: -
